I have thought for some time, that this group really needs a FAQ (Frequently Asked Questions). I feel that as a group, we should be able to come up with something that could introduce people to the group and answer some of the more common questions. Including links around the web to the information needed to answer some of the questions.

As an opener I will contribute these couple of links that spring to mind

Merck Veterinary Manual

http://www.merckvetmanual.com/mvm/index.jsp?cfile=htm/bc/toc_200100.htm

Poultry Genetics for the Non-professional

http://marsa_sellers.tripod.com/geneticspages/page0.html

Breeds of Poultry - Department of Animal Science, Oklahoma State University <http://www.ansi.okstate.edu/poultry/>

History of Chicken Breeds

<http://www.urbanext.uiuc.edu/eggs/res10-breedhistory.html>

Now I throw the forum open to the group:

Do we want a FAQ?

What form should it take?

Who would be interested in contributing?

Anything to say on the topic at all?

Matt
