You expressed surprise that buyers leave
feedback before hatching.
That would seem to contradict your "once
you've set them you've
accepted them" philosophy.

Don't you only have 30 days from when you pay to leave
feedback?

Hmm – seems he is now abusing the seller on Ebay feedback

ABUSING!!!! He left a lie and negative feedback and I responded to that –
AFTER verifying that others had zero hatchings under controlled
conditions.

You need to get over your negative EBay experience. We live and learn.
Some send genuine eggs that hatch out fine. Some don't and shame on them.
