Rubbish – they were as casually into that crap as they were casually into church. Not much at all. Yes, I understand the terrorist mind set. Some of the Islamic scholars came out and spelled it out for the West. It's the West that's being STUPID, imo. And so – it goes how it goes.

Yes. Who doesn't know that? However it's not all so cut and dry. Back then, the only people known as "Palestinians" WERE Jews. That changed over time. The Arabs wouldn't let those people into Arabia either. Also, the Jews really DID something with that land. The nomadic people there prior did not. Jews also paid for it – they paid not only the Brits, but the Turks who also owned land there.

The solution is to either get the Jews out of there once and for all – or eradicate the Palestinians and others there. But that's not what the war is about. It's about pipelines, oil and greed.

What the Jews are doing, in a sense, is no different from what whites did to the Native Americans. Taking over land, driving others out. But it's not just about that – not at all. Who the fuck is the West to IMPOSE "democracy" on anyone when they don't want it? It's not democracy that way, it's tyranny. If the West stayed the hell OUT, like Buchannan advised, 9/11 would not have happened.

My take? Let them blow themselves to hell – the sooner the better. Just go in there and TAKE the god damned oil – after all, Western technology built it all up before the Arabs nationalized it. TAKE it. There is no right or wrong here. Those who can – heh, they DO. What's everyone waiting for? Syria to get nuclear weapons? Tippy toeing around the irrelevant "world opinion" crap. FUCK world opinion. I live in the USA. We need oil. Technological society can not run without energy. Either that, or find new ways to make it and eliminate use of oil based fuels. That's not gonna happen. Genocide WILL happen. Just wait and see. Civil War will happen in the USA too over the cheap scab and illegal labor and outsourcing versus Legit Labor and good wages. Wait and see.
