[a repeat of the previous post which, predictably did not address the criticisms leveled, just more of the same bawl-ass whining]

Oh, and one (1) decent .sig:

"It was only a masters project. I only had a few days to do it in." --Algis Kuliukas 10/21/2005

> Therefore it is in habitats prone to flood-desiccation cycles (like
> gallery forests of the Pliocene in E Africa, perhaps) where traits
> which favour bipedalism might be expected to flourish.

>

> Algis Kuliukas

--

"I'm trying to break that cycle of ignorance, you're trying to maintain it. --Algis Kuliukas 08/24/05

.
