Me:

– Human
brain size
should be
explained as
that of other
animals:
there are
correlations
with water,
trees, varied
diet,
varied
recent
evolution
etc.

Mario:

No. We have UNIQUE
body thermoregulation. In
our system we lose
heat through our head. ...

No, no, Mario: that's savanna believers'
fanatasy (you know, running
over
hot plains & radiating heat to the sky
