Niccolo Caldararo: " It is embarrassing to you (or should be) for you to continually make statements which most of us know are unsupported by the data."

Dan Barnes: "...a number of people have suggested that the best thing you can do is do substantial background reading, reframe your arguement and come back again."

Greg Laden: "Read the stuff. If you have a vague memory of it, that is not good enough." "Hit the books, kid!"
