On Mar 13, 12:23 pm, Marc Verhaegen <m_verhae...@xxxxxxxxxxx> wrote:

None of this means that their principal use was for hunting large prey -- nor even that it was a significant function at all. It's like suggesting that all the 'personal weapons' carried around by most of the adult males in Afghanistan or in eastern Los Angeles are intended mainly for hunting wild animals. Paul

Nothing wrong with this AFAICS, but then some netloonproduced this blabla:
