What kills me, is that all those dumbfuck countries giving them this aid,  
definitely DO NOT want heaps of them flocking into their own countries. WHY  
don't they just put their guilt in the toilet and flush it – and then STOP  
GIVING THEM ANYTHING?

Heh, South Africa made sure to dismantle ALL nuclear facilities before black rule replaced what they had.

Catholics can fess up mortal sins to the Priest and all is OK. LMAO. God forgives, LOL.

Why don't they fix up their own countries?

Depends on what kind of race mixing. There is more segregation in the USA now than during Jim Crow days – demographic FACT.

Well, with some of their countries 80% people have HIV they aren't actually increasing all that much. You see things in terms of stasis quo. Don't you get the notion that when the shit hits the fan, people DO REACT? History proves they do!

Back then they during Mao and Dong did, and heh, predictable, they had riots and wanted to kill those students. Chinese tend to think of these Africans as monkeys – they REALLY are the MOST racist people I ever met in my LIFE. They way outdo the KKK, seriously. Chinese word for black – is Ha kwei – it means "black destructive demon!" That's not similar to their word for whites. LMAO. Interesting that they also have the idea of destructive.

They must

- > *allow blacks into their country, to not do so would be racist and*

HA – and you really think China cares? Do you know what they DO to Koreans sneaking into their country? LMAO. TORTURE them, then kick them back out. Even kill them.

As Asia get's richer, which it is, it will be as

No one is trying to sneak into China if they have strong self preservation instincts. See above, what the Chinese DO them is pretty bad. And they DO NOT CARE what "the world" has to say about it. They ignore it. You think that the whites can morally blackmail the CHINESE? LMAO – oh god man. NO NO NO.

Right now. You forget really fast that not so long ago, people didn't even regard them as human. People are funny – it goes up to a point – and then OOOOPS – genocide. History man. It's history. You need to grasp that the forces of the LEFT WING are pretty dead these days, LOL. Most of the Red leftovers have flocked into the Greens – and what they preach is detrimental to primitive nations getting more industrial. The pendulum tends to swing. The 20th century, early on, was the century of pure fascism. Then the left took over and it swung the other way. Things are kinda getting more right these days. Again. I think you worry about things you don't have to worry about! I won't even be ALIVE in 2050, LMAO.

Yes, I know that – PLUS they refuse to quarantine them. You tell me – are they TRYING to commit genocide and pretending to help them? You tell me. I am using logic here. Benign neglect, while pretending to HELP them. That's what I see – actually exacerbating the problem and making it 1000 times worse than it was in the early 1980s. That's what I SEE. Are doctors THAT stupid? I don't think so. I give them more credit than that.

I know that. And those countries MIGHT BE quarantineing them or er, something else more permanent?, there is no way in the world for anyone to

sci.anthropology: Re: Stephen J. Gould and anthropological fraud

REALLY find out what goes on there. People in India are NOT stupid – they are above all, very objective and clinical. But Russia and China? Phphph. Those guys still have secret police there, you know? LOL.
