

What if we were monkeys?

What if we were monkeys?

What would happen to the world, if all of us --scientists and laymen alike-- were convinced we are monkeys. Would the world descend into the Law of the Jungle --worse than it is-- or would it simply be a world where the traits of the monkey --primarily cooperation-- would prevail? Well, it would be a lot of fun too, right?

Put your headphones on --and grab a banana-- before you can enjoy/cry over what these stupid monkeys are doing...

Oh, we should add that some of them want to believe themselves to be lions...

Hey, I don't want to leave you depressed with those stupid monkeys. Some monkeys really know how to have fun...

Do you imagine life as a monkey would be like?

A lot of fun, for sure. I sure like to play with those lady monkeys.

Hey, if you are really proud of who you are, you may consider this T-shirt:

"Have you felt like monkeying around without any apparent reason and with a sense of guilt? Well, now you know what to do..."
