So: Inger is not stalking me, but I still think that this goth-thing is crap. OK?

Yes I agree, Marylyn Manson sucks, but the important question is: who is Inger stalking? I won't rest until I find out.

I am not stalking anyone - but two more persons here in group reported to Police today(!!!) for sending me real offending and criminal childsex mails!

As a person who has thirty odd years of computer experience, why, after all the advice given to you over the last few years, have you ***never taken the precaution to protect yourself*** from unwanted, unsolicited, spam, and such pornographic email is astounding. You openly use your email address on a public forum, which is not only shown as newgroups in Google, but mirrored in several hundred other internet web news listings as well. If Google Groups does protect itself from email address harvesting, other such news providers may not. As such, your problem is not going to be resolved. It may be that the name you think the sex spam came from was directed to you by that person, but who in their true and sane minds would email such stuff to you and risk having their names tarnished and investigated by the police when everyone knows your attitude about such things in this and other forums about such spam. Madam, you may have recieved what is spoof spam email, and police will be looking at the email (if you indeed reported it), and will find a trail back to a spambot somewhere. The person you hold responsible is left in your mind, as the perpetrator, and the real criminal is still out there

Re: Inger isn't stalking me!!!!

with your email address ready to send you more via the spam bot.
If with, your experience, you are stupid and idiotic enough to use a
real email in your replies, you deserve to get all the crap in your
inbox as there are grains of sand on the seashore. I'd say your
experience of computers is bluff, or rather padding your credentials
over much, and being seen for what they are.

Dyl.

And I think her claim of "real offending and criminal
childsex mails" is a lie.
And I feel realy very offended by her "two more persons
here in group"
I think this is more than enough to report her to Telia.
