You aren't the Peter but you are writing from same town as the other one who is registered at two Officials here for sending false sex-law information to groups here. One Minister and one Parliament member helped me and the Irish gentleman, who asked me to help in due to I have been active in politics(local and regional level) in the past, to stop persons of certain kind spreading false rumors about Sweden and Swedish laws. This was seven years ago. I had moved to Gothenburg. It took only one week after the Peter in question been contacted by Officials till I had the first childabuse-sexmail sent to my mailbox. Then that Peter and one person in LA, followed by one so called scholar in NY started to write personal abuse against me. Some others joined troupes with those ugly filthy three. The others, except for two who been reported to the police here during the last year, I never suspected of belonging to that category. But that was when it started the personal-abusive attacks and stalking of me. It's registered and noted. If someone of the other abusers belong to same category you better beware that there are instances around the world who follow up more than you ever will know. Thus those who continue their stalking of me better be clean.
