First I would like to point to this interesting article:
Levine Mary Ann, Determining the Provenance of native
copper artifacts

from

Northeastern North America: evidence from instrumental
neutron

activation

analysis
Journal of Archaeological Science, Volume 34, Issue 4, April
2007, page
572-587

and ask if it's not about time to recognise that also the so
called New
World had a Bronze Age which in some cases seems to have
started if not
earlier so at least as early as in the so called Old World?
Reason for

Re: North America's Bronze Age?

my

question is that Levine found chemical characterization of
copper from
