HUBBLE WEBCAST ANNOUNCEMENT:

The following event at the Space Telescope Science Institute in Baltimore MD will be webcast live. Those watching the live webcast will be able to submit questions to the speaker via email. The recorded webcast will also be available for viewing online shortly afterward.

To view the webcast, you may need to download and install software. See the web site listed below a few days in advance for details.

Hubble Space Telescope Public Lecture Series
at the
Space Telescope Science Institute

Baltimore MD

Speaker: Dr. Frank Summers, Space Telescope Science Institute

Topic: Fifteen Years of Intriguing and Astounding Images from Hubble

Date: Tuesday, April 5, 2005

Time: 8 PM

Place: Space Telescope Science Institute (STScI) Auditorium

Price: Free admission and free parking

Phone: 410-338-4700

sci.astro.amateur: Hubble Webcast Announcement

Internet: http://hubblesite.org/about_us/public-talks.shtml

On April 24, 1990, the Hubble Space Telescope was launched into orbit aboard the space shuttle Discovery. Fifteen years later, Hubble has revolutionized views of the universe for both the professional and the layman. Although designed to do cutting edge astronomy, Hubble's amazingly detailed images have also captured the public's imagination, and taken all of mankind on a remarkable journey through the cosmos. Dr. Summers will present not only the most beautiful images from Hubble, but also provide the scientific insight that renders them even more stunning.

Lectures on a diverse selection of cosmic topics are held the first Tuesday of every month at 8 PM in the STScI Auditorium, located at 3700 San Martin Drive on the Homewood campus of Johns Hopkins University. Admission is free and free parking is available in the lot across the street.

This lecture will be webcast live. The recorded webcast will also be available for viewing online shortly afterward. To view the webcast, you may need to download and install software. See the web site listed below a few days in advance for details.

Further information and directions are available by calling 410-338-4700 or on the internet at:
