Not to change the subject here, but I sure like Google Earth
(<http://earth.google.com>)

Now all we need is Google Mars, Google Jupiter, Google Mercury, etc., etc.,

Martin,

Surely you have already heard of google moon right?
If not, be sure to zoom in all the way ;-)

<http://moon.google.com/>

google earth is very cool .. too bad not all regions have been digitized
to the same resolution (yet?)

.
