Odd name for a Virus, John :-)

Touché, Phil. 8^) MS details it more comprehensively here: <http://www.microsoft.com/technet/security/advisory/912840.mspx>

Thanks, John. BTW there it says in one paragraph:

Upon learning of the attacks, Microsoft mobilized under its Software Security Incident Response Process (SSIRP) to analyze the attack, assess its scope, define an engineering plan, and determine the appropriate guidance for customers, as well as to engage with anti-virus partners and law enforcement.

Big Brother is on the Job :-)

They plan to have a fix one week from today.
