I'm not a member, but I notice that they have a May Newseltter posted and parts of their website have been updated as recently as yesterday.

I am posting about the International Dark-Sky Association (IDA) has probably gone out of Business! I never received the Spring, 2006 IDA newsletter in the mail. Has anybody experience mail or email problems with IDA? IDA has never had a huge membership level like The Planetary Society has. If IDA is still in Business, I doubfully they will ever have a huge membership. So, IDA is a failed organization with ragtag fighters for a dark-sky worldwide! IDA never reach out for a membership drive! Do you see what I mean? In closing, let's have rebuttals to this posting.
