That's right. And I don't believe I've used any /personal/ insults, until
he
did.

Well I'm glad to see that you are still well
versed in 5th grade politics.

Thank you. In what may seem like excess nobility to you, I do actually
appreciate politeness and do not reciprocate using foul language unless I am
provoked. If this looks like "5th grade politics" to you, then you ought to
take lessons from your government. Its foreign policies are vitually
synonymous to "5th grade politics".

You really ought to think about the fact that you
are showing your frail ego in public for all to see...

I also appreciate it when threads that I participate in using scientific
methods do not get hijacked from people who tout Judeo-Xtian stuff. If that
seems to you like my ego is "frail", then you need to study Freud a bit more.

Do you really think that we care who insulted who ?

No, you probably don't. On the other hand your side of the atlantic is famous

Re: Science and Reincarnation

for its calous indifference to anything relating to "culture", so I didn't actually expect any better.

Brian is right. You two need to get a private chat room.

The issue between me and Mij is settled, so let's give it a fucking rest, shall we?

The best way to predict reality, is to know exactly what you DON'T want.
