>*You read about one (1) Mammoth discovery and now you think you know  
>everything?*

You made the claim. Where is this "near perfectly preserved" mammoth  
you keep going on about?

>>>>>*Also wouldn't the tectonic plates all over the world begin to shift or

Sure, pumpkin, you keep on believing that.

>>>

>>>*No, you are confusing magnetic reversals for tectonic plate movements.

>*It actually shows how much of a dumb arse you are..your so called*

>*"research" isnt worth half of what my toilet paper is worth.*

Because you say so, not because of ANY evidence you have even attempted to put forward. A good troll would at least try to.

>>

>>> *with*

>>>

>>>>*wave action proving how they were formed.*

>

>*There is no wave action of water that produces perfectly horizontal and*

>*vertical walls as yet in any scientific paper I have seen? Please show*

>*perfectly aligned vertical walls and horizontal steps? Please do show*

>*your incredible (sic) research?*

Look below.

sci.astro: Re: Another "Pole Shift"

>>>How utterly despicable of you to write that. There is no such proof  
>>>that you suggest, if so provide the links please, otherwise I hear the  
>>>nurse is waiting for you outside your padded room.  
>>  
>>  
>> Sure thing, asshole:  
>>  
>> "The Japanese sites of Yonaguni and Kerama are natural rock, with no  
>> sign of archaeological significance. Again, I informed Hancock's film  
>> company in June 2000 that these sites were natural, and that there  
>> were better sites to visit. This information was ignored, although all  
>> the documents and reports on better sites are in the public domain  
>> (see bibliography, below). The Japanese Nippon TV company showed me  
>> video recordings of the Yonaguni site in about 1992 and I considered  
>> it to obviously be natural rock, an opinion that was reported on  
>> Japanese domestic television."  
>> source: <http://www.hallofmaat.com/maat/article.php?sid=36&page=1>  
>  
>Shit man, that web site right from the start proves its hostility to  
>anything supernatural, yet with Egyptian artwork to boot. What a damn  
>bunch of hypocrites you like to quote from. The article you are quoting  
>only shows to me that they never saw the actual underwater sites...but  
>merely viewed pictures of it online. Furthermore, they have yet to  
>explain how water erosion can produce vertical walls in perfect  
>alignment even after thousands of years under water. Put plainly its a  
>web site devoted to sycophantic spin doctoring and hateful arse kissing  
>propaganda. You'll have to do better than that.

As good as you are doing, even better.

>>  
>>> Even the TV show  
>>>  
>>>>were Hancock tries to prove they are man made the geologist  
>>>>with him says otherwise.  
>  
>Ok, so what. A geologist says otherwise...who cares. The facts speak

That's right, ignore the word of a scientists over a con artist.

>for themselves. In fact the discovery of the underwater monuments were  
>predicted and the exact location to boot before their chance discovery.

Says who?

> And by the way....how come no one is saying anything about the  
>Mediterranean underwater cities and structures? How did they end up  
>underwater? And how come your geologist who relies upon water erosion  
>to discount perfect vertical walls and perfect horizontal platforms  
>under water....says nothing about the sphinx being subjected to water  
>erosion at a much earlier time than is accepted by Egyptologists?

Re: Another "Pole Shift"

Cite?

>>>*Just like you I suppose, you can prove that there is no such thing as  
>>>sunken artificial cities.*

>>

>>

>> *I didn't post that, now did I, asshole? I have scuba dived on one,  
>> have you?*

>

>*Tsk, tsk..dumb arse. You just said there is no under water cities. ANd*

Nice try, stupid troll. I didn't say anything of the sort.

>*in this post you provided a link to a web site which says the platforms  
>were made by water erosion, even though there is no proof to say  
>that...you back it up like its the truth.....so who is the dumb arse? You  
>are.*

Looks like you're the one stepping into your own troll shit.

>>

>>

>>

>>> *The claim for Cuba is even more silly.*

>>>

>>>*Thats why National Geographic is doing a report on it, because of its  
>>>silly factor.*

>>

>>

>> *No, the claims that are being made are silly because a LOT more data  
>> is needed. More than one dive, and a closer one at that, is needed.*

>> *I bet you don't even know the extent of the first expedition, do you?*

>

>*How old are you? are you like 20ish going on like 9?*

You really can do better than this.

>>

>>>>*So far all they have done is find rocks that might be man  
>>>>made, but a LOT of closer investigation is needed before  
>>>>any conclusion can be reached.*

>

>*Blah, blah, blah, blah..thats not how you act in your first response.*

>*You said and I quote...there is no such thing as underwater structures  
>that are man made.*

No I didn't. You go ahead and show us the google reference, pumpkin.

Daymn boy, but you are so transparent.

sci.astro: Re: Another "Pole Shift"

>I did a quick search on frozen mammoths only to show that certain  
>conditions are necessary for them to exist. But like the underwater  
>monument finds all over the world, I figured dumb asses like you would  
>say, there is no such thing as frozen Mammoths. So I provided a link.  
>The actual find is quite specific however that I am referring to when i  
>say...nearly perfectly preserved. Remember that is nearly...in case you  
>miss that.

I'm still waiting for a reference to a "near perfectly preserved"  
mammoth.

>Shit man, you are and others in here are pretty darn stupid. This  
>thread is all about polar shifting, but instead...its more all about  
>"prove this Yoda, and prove that Yoda, and your stupid Yoda, and blah,  
>blah blah" there is no serious interest here about what happens during  
>a pole shift.  
>  
>>  
>> And you even suck at the ad hominem, let alone backing up your  
>> claims.  
>  
>Fuck you too.

Nawww, pumpkin, you fucked yourself.
