Yes I am against all those who don't respect the ten commandments, it's time that zog stop killing in the name of God. And power must be given back to the tribes, the children of god. that's how i see things. Enough lies, will everybody say. Mark my words. I know you would not choose for me, because you are afraid of the father in the heavens. I say to you don't be afraid, because the father loves all his children who want to listen to his commands.

you are joking? right. Come on, how many years shall we go on with this lies. The day you can go back to the moon, warne me. Till than, i shall believe in my religion, and say whatever my religion permits me to say.

It's not that you are working as decorator in a theater that makes you an expert on moon Questions. And it's not me that you have to crusade, you know what i think about moon Religion. No it's the daily growing mass's that don't believe in the Nasa temple high priest anymore.

And were I go look for information is not your bizness, But one has only to google and he finds what he is looking for. so easy, and so shall the Zog empire fall.

I only know that the Staff TEMPLE 1, of the archangel is there and the Nasa's Staff serpents, can't stop it. And that they proof to the world this time that, they can. That would be already a good proof. The staff of Moses against the staff of the Nasa High Temple with their fake miracles. I wondering wich serpent shall eat the other. I am sure you shall declare the ancient egyptians had no submarines, sattelites, plains, helicopter's, Internet and so one.

And even when I show you those facts in front of your eyes. You shall continue claim that we are the Liars. So you see there is no way to make magog understand they are only living in the Zog Matrix. till they shall see the second sun, with the ten pleads ass the Egyptians have seen? SHALL THE ZOG TEMPLE SAVE THE WORLD, or shall be a simple Moorish man with his temple who shall take over that task, on him again? that would be the right question. and who to believe.

> / could you a actually answer how a university in India had a sample
> / moon Rocks before the Magogs took off to any distance above the surface
> / of the earth.
>
> That depends on whether you can provide any verifiable evidence of your

Go to india and ask them, or do google search and you shall find.
