World BlueStar Awakes With (ElectroDynamic) Start!

press release for all peoples of the world ...

birth of Electrodynamic Blue Star, Global Consciousness!

the overarching COMPLETENESS of the global corporate media banking \*gag-sputte\*r chem-dissolution State -- gives witness, birth, to our aggregate voluntaryist awakening-planetwide world heart/mind/body collectivity. the Blue Star, world consciousness, integrity, knowing-ness, sensitivity, gentility ... nurturing respect!

Re: Gentlest Awakening For Our Divine World Family!

~~  
~~~

for your Wire Service!

this is the 'release' on the Nuclear Structure publication!

for a WORLD in collaboration ...

we just sent this announcement to the BBC, with a special thanks to their editors and science writer Paul Rincon, for sharing "Climate 'Hottest for Millennium'" with a world ready for simple, caring, truths.

the BBC interviewed me live from New Zealand -- years ago --

## Publication of Electrodynamic Structure of Atomic Nucleus

and now we are back in California, my wife Megumi and I.

then the news was my X49 Scramjet spaceplane design, for which we were conducting preliminary tests in New Zealand, and had distributed the business plan for.

now the news is my publication of the Structure of the Atomic Nucleus -- putting an end to a hundred years of disinfo & fear-tactics by the 20th century corporate consumer state. putting an end to that ignorance-based media programming of conflict and combat focused around the nuclear industry commitment to nuclear fission energy and arsenals.

as your science education will tell you, the global nuclear fission industry is deadly -- and is based on the forceful breaking of large and radioactive nuclei (heavy atomic elements) and the production of further radiation (gamma rays, beta particles, fast neutrons, etc.) and further radioactive decay products.

fusion, CREATION of the smallest, healthiest, elements of the periodic table is not only a natural and organic process -- but also can produce a hundred times more energy for a whole collaborative world, a hundred times more energy and safety than deadly atomic nuclear fission.

fusion, not fission. creation, not violence.

to repeat, I have now published the Electrodynamic Structure of the Atomic Nucleus ... for ANY scientist, engineer, student, journalist or other to download, discuss and understand, WORLDWIDE.

entitled NucleonSong, it can be downloaded or discussed at:

<http://groups.yahoo.com/group/NuclearStructure/>

<http://groups.google.com/group/NuclearStructure/>

or from a few dozen other groups and locations orbiting in cyberspace.

<http://groups.yahoo.com/group/StarShipChina/>

<http://groups.yahoo.com/group/Nuclear-Physics/>

<http://groups.yahoo.com/group/NaturalPhilosophHER/>

for three examples.

yes, the paper includes the electrodynamic structures of the helium, lithium, beryllium, boron, carbon, nitrogen & oxygen nucleon groups (nuclei).

## Publication of Electrodynamic Structure of Atomic Nucleus

i.e., it reveals a new paradigm in our world — the realm of creation, not destruction. nature, and the light elements of the periodic table, are all assembled in nurturing healthy processes ... setting an example for global humanity in the era of the arrival of the soon-to-be well-articulated Blue Star ... Manido, Maitreya, Messiah, Maschiak, Madi.

and of course, I can email you it as a 2.4 Meg PDF file.

for all our sacred relations,

Millennium Twain

father of the US/International Space Station Program,  
Who's Who in the Frontiers of Science & Technology,  
designer of the X49 Scramjet 'Electra' Spaceplane,  
publisher of "The Undiscovered Physics"

organic, green, vegan, car-free ... refining ...
