The Supreme Court should order to stop the Iraq War.

There are no "nukes" in Iraq.

They might as well occupy the whole arab world.

The Iraq occupation is illegal and fascist.

What Bush did is supreme violation of human rights.

While soldiers are loosing legs, Bush profits illegally from oil. The world's most horrifying sight when Bush says things like: (to russia, germany and france) "Let me tell you fair and square. Only countries that risked lives are allowed to profit from Iraq's reconstruction bids". Some people believe dirty profit is important. Just because being a Texas businessman does not constitute one for practicing human rights atrocities.

I have a good feeling about this.

.
