Bush is a terrorist (criminal supremacy that stems to the 1930's KKK by erecting Iraq as a model country for other arab countries, a country better than Arabs and immensely worsening racism: 80-90 percent of Arabs think negatively of Americans while in the past Arabs thought positively of Americans, Bush compromised safety with racism, and mixed politics with piracy, supremacy and blackmail money. In other countries presidents who conspire once are removed, the great comoter with his army in 110 countries will NEVER be removed!).

Never EVER argue with circumcized people.

Re: Uneducated Republican, Blinded Racism

Arabs, Jews, Ku Klux rednecks.

Bush's fantasy island journey to topple a dictator...

The world didn't want to believe it.

Klux Island. The plan, the plan. The ku klux plan.

Police—America is coming with him, there he is, coming off the plan, short, big black glasses, long man nipples, boss. He brought his guerilla gun collection.

Boss: Let's greet him.

Boss facing Bush: "Here on this island the custom is to pull man nipples."

Bush: Ouch!

Boss: Now you have long and pointy man nipple, you can sniff it but don't bite it, it might give a bad image to the enemy. Prepare, as you have never been prepared before, the enemy already suspects your presence. We have a dictator on this island, and he is conspiring to topple the world. Your mission will be to stop him before its too late.

Bush: You can let go of my nipples now.

Re: Uneducated Republican, Blinded Racism

Boss: Beware. You are also to uncover hidden weapons of mass destruction. There are also terrorists on this island. Terrorists cannot be allowed to win war on terrorism. Firstly, you are to find the link that ties the dictator to the terrorists. Second you are to find the secret weapons. Then you must remove him and chase away all the terrorists. I wish you good luck, but keep in mind, you are on your own. Many may think badly of your quest to topple a dictator, you will need to rely on your secret police at all times. Never listen to anyone. Don't take suggestions from anyone. It will be just you, the secret police and the jungle. But removing the dictator is not going to accomplish the job. During this mission you will have to stop three enemies. On the neighboring IRAN island you will also find weapons of mass destruction and harboring of terrorists. There lives a villain who is building weapons of mass destruction. Then on the third island there lives the great comoter keeping all people there under indivisibility. You can recognize all his people as having two pins wore of their two leaders on their chests anywhere they go, they wear those pins. On those pins you will see the picture of the great comoter, you must liberate that island as well. You are already running out of time. You must hurry and stop all three dictators or it will be too late. But if you move too fast, your mission fails. Happy playing. Now run. Run! Get those dictators, before they get all of us.

One minute later he is escorted back by an island guard:
"Boss, he moved too fast. He is going to get all of us killed, what should we do?"

Boss: Let him screw up the world and play.

Dwarf: Boss, he is too fake. He is going to get all of us killed.

Boss: Whose to say we have any jurisdiction on how he and his secret police runs this mission.
