Last week 100 percent Republicans (in the house) voted for war, as in the past 100 percent Iraqis voted for Saddam, as today indivisibility keeps all North Koreans wear two pins in the streets of the two great leaders.

Radical regimes. It's aughful. Daily brainwash, like the Taliban forcing all people (youth) to pray to God, to a land united by a God daily.

I grew up in Communism, regimes are very annoying with indivisible political forces aimed toward war.

In reality most politicians in the US government today are guilty to conspiracy to racist crimes. This kind of mass political corruption to racist crimes happened in Hitler's government. Most of

## Re: Real news

Europe  
recognizes racism in politics as a crime, and compromising  
safety  
with racism in the government is a corruption. In other  
countries  
presidents who conspire once are removed, but in a place  
where  
corruption dominates regime politics 100 percent voting  
unity is  
found as under Saddam's government, a symbol of brainwash  
and  
criminal invasion (discrimination).

Not a single opinion that represents the people. Not a single  
opinion  
that might represent the self, only opinions serving the  
regime  
prototype,  
a vote always made for war as in Orwell's book where  
Orwell wrote  
politics was: war is peace.

History does mean something, a lesson, and if anything history should  
remember 1st Lt. Ehren Watada as a hero. In a world where people  
are taught to vote collectively and toward stereotypes, it is hard  
to represent an individual opinion. In November of 2006 Ehren was  
arrested for making contempt toward other officials by speaking  
of the President and of the Iraq war. As all people who are involved  
with the Iraq war, the opinion of a young man out of college is that  
something smells fishy about this Iraq war and better speak about  
it. Fishy as seemingly wrong things are being done. Racism escalated  
since Bush went there, is that the right politics to blame it on  
others  
and not see that now 80–90 percent of Arabs think negatively of  
Americans while in the past Arabs thought positively of Americans  
according to statistics. Bush compromises safety with racism  
and that is a corruption. In other countries presidents who  
conspire are removed, but the US is now in a continuous conspiracy  
where all is divided black and white. But the Bush, the great comoter  
does not need to worry of a removal, EVER. This is his territory,  
his wars, his legend in the making, and as Republicans say:  
conspiracies? Oh, nobody is perfect, not even the president.

A model empire, ideologies of big-time history making, Hitler  
wanted government buildings that would collapse as the greek

Re: Real news

colloseums. Historical significance, a model (Roman) Democracy, thinking of significance in history in the making, Iraq as well is perceived as a model in the making, a model country for all Arab countries, but not seeing racial supremacy of erecting Iraq being modeled as a country better than Arabs.

Racism long corrupted the US government, criminal supremacy stems to the 1930's KKK and it is terrorism. Bush is a racist terrorist supremacist, a criminal who conspired all the US government to racist crimes.

Never humanity has seen such a horror as the racist Republican (give him a burning cross, the KKK and radical extremism (of power) is where one finds it.

Israel went into Lebanon, cleaned up the terrorist problem and weeks later left. Israel did not stay in Lebanon to overthrow power and erect a model country, a model Arab.

Racist supremacy, what Bush does is terrorism. It is KKK vomit from the 1930's, resurfaced with all it's clensing. It is so illegal it is unbelievable racism.

Yes, Bush is still erecting a model Iraq today in the Arab world, as his modeling agency sees a hunger to make one hair style for all Arabs, a Republican one, one with a shining ass ready for work and organized golf.

Yes, Bush stands for racial clensing, as a man of an empire he stands as a model and sees things as orderly and mandates, but this ancient mentality corresponds with 1st degree racism and crimes against humanity.

By all means all politicians in the US government are conspirators to illegal racist crimes. All politicians in the US government belong in jail. Safety cannot be compromised with racism, that is a law, and as corruption, as crimes against humanity for modeling Iraq as a model country for all Arab countries corresponds with a fall of a racist klan in power, a klan with an army of politicians voting 100 percent for war, it is like North Korea, brainwash of power, and violation of humanity and Democracy with all the pins made wore by all North Koreans in the steets.

Republicans are a radical supremacist terrorist war cult like the Hamas. Terrorists. Criminals, human rights terrorists. Bush's Iraq war started a year after 9/11, on the anniversary

Re: Real news

Re: Real news

at the WTC site Bush promised a revenge (eye for eye) to the families of the victims, and the next day on 9/12/2002 Bush on TV announced a war against Saddam (based on revenge for Osama's crimes).

.
