ASTROPHOTOGRAPY BEGINNERS OR ADVANCED WE HAVE SOMETHING FOR EVERYONE.

Join us for a spectacular weekend in Philadelphia. Great presenters,tutorials, vendors, all meals and snacks included in one price. Very good chance of winning terrific door prize. Last year we had over \$5000.00 Dollars worth of prizes.

We would like to make all of your members aware of the East Coast Conference on Astronomical Imaging (ECCAI), to be held on Sept 28–30, 2007 in Philadelphia, PA.

If possible can you kindly post this info on your website, or pass on to anyone you feel would benefit from this informative, easy to reach conference.

In case you have not yet signed up for this conference, but are still planning to come, please complete the necessary paperwork ASAP — you can do everything online via our interactive website

We are offering a total of 17.5 hours of lectures and/or workshops beginning on Friday afternoon and going through Sunday afternoon, not including additional time for vendor exhibits, etc. We guarantee a fantastic weekend that should be a valuable learning experience for both the BEGINNING and advanced imager.

Sept 28th still seems like it's far away (after all, who's thinking about the end of summer before it has even begun!), but unless you register NOW, you may be closed out!

Hope to see you in September!

The ECCAI Board:

Please visit our website for more details:
