Bush wants to convert countries like Afghanistan where 1 in 8 women die from birth related complications and Iraq where recently at least half a million mostly women and children died from hunger (last statistics I know on this: 90's) into model Arab Democracies, and on top of it it's not even allowed. Destiny: May a mafia man die like a mafia man, shot down by machine guns, but he will probably receive the crimes against humanity for ignoring racism he caused in totalitarian...

80-90 percent of Arabs now think negatively of Americans as a result of the Iraq war, while in the past Arabs thought positively of Americans, according to statistics made by a Jewish political institute in Israel. Osama could have never dreamed of creating so much hate between the two races. Bush is an illegal man, a man sloganeering pre-world war II mentalities, while the world learned from the horrors of world war II. Bush claims a model status for Iraq, a country that would stand as a model for all Arab countries, but with it a country that would be better than Arabs. Fascism comes with all eye blinkings during speeches, unstopably as Hitler Bush claimed the course will be taken to the end. The USA died.
