We are the
wacahar.

1. Booglebush Bush, threat

of power.
2. Booglebush Google,

In one word Booglebush extreme psycho
cults of racism and
blackgovernment
aiming to imply old horrors of big brother
that eliminate general
medicine
and claim alternate medical treatments and
scientific methods. Google
has not yet formed alternate medicine ideals.

You may recall that President Bush sees private medicine as
a solution
for all where all general treatments are dismissed and
millions of
children
left without GENERAL health care. A cult, and as that aims
to take
over
the world.

Hitler perceived people as those who are living off of the society, like handicapped and ordered their extermination. Things improved, but endlessly fighting in the USA. A cult leader is a King, relentless, cruel, profiling, watching, tarnishing masses for loyalty to the government, taxes are paid to him, and the money is spent on wars. Barbarism thrives, people live to die and face enemies of the empire, a life as that.

In days of slavery the situation was the same, guns miniasculed the rest of the world, and as that little was heard from peaceful cultural regards, all culture, villages eliminated for a government pride.

English imperialism, long socks and pride, I'll kick your balls. Gob bogernment powder, God save the Queen and the constitution, constant raids tarnish loyalty in the population. Blackgovernment police stands in Austin reminding of a government image in black outfits and riot helmets

in places of downtown many go out after a hard week's work. Party with a dictatorship, watched by government police. They are not playing games, they want something, a liberal mentality wiped out.

Jumping to conclusion,

he wants to substitute humanity with a Kingdom.

The normal, believe it or not, is to have a general medicine, and allow people to choose private doctors. But to him, he makes decisions that substitute all things by/with his dominance of power he believes in that is better as it is seen as better, but as racists and slave owners, he declines all rights to the less wealthy and sponsors supremacy and wealth in all things as standard. But his aim is to repress and acquire such standard as norm and transform humanity into a cult of living and dieing for such an empire of high expectation z.

A terroristic cult of Booglebush receives full interest in pervasive domination and an illegal cult domination through elements of such powers of repression via big brother and other repressive dominance playing role in the mind as necessary, yet off of realit y.

y.

And a terror cult, a fallen cult in human affairs. Osama could have never dreamed of such racist achievements. 80–90 percent of Arabs think negatively of Americans as a result of the Iraq war, according to polls taken by a Jewish political institute in Israel. According to this poll, in the past Arabs thought positively of Americans, regardless of politics. Americans are united in mind with the government (classic regime), unlike in other countries, unity is not part of life, but life takes dominance. The definition of fascism is unity (with the government),
