Re: 3 evil axes of humanity: Bush, Google, sectarianism and children

And a terror cult, a fallen cult  
in human affairs. Osama  
could have  
never dreamed of such racist  
achievements. 80–90  
percent of Arabs  
think negatively of  
Americans as a result of the  
Iraq war, according  
to polls taken by a Jewish  
political institute in Israel.  
According to  
this  
poll, in the past Arabs  
thought positively of  
Americans, regardless  
of politics. Americans are  
united in mind with the  
government (classic  
regime), unlike in other  
countries, unity is not part  
of life, but  
life  
takes dominance. The  
definition of fascism is unity

government),

options to the rule:  
barbarism.

The blackgovernment of barbarism, ancient  
offense, present  
from the days of slavery, a pledge to  
receiving the nationality  
ends with: "I swear to accept the United  
States Government as  
my ruler." As that the military operates.

Re: 3 evil axes of humanity: Bush, Google, sectarianism and children

In a Democracy the government represents  
the people, though  
there is a seat, the house of representatives.

Questions of offensivity arise in a country  
more advanced perhaps  
and full of diversity, called minorities.

I'll give rise to the term: indegenius humanity.

Don't harm many for the crimes of a few of their people.

Be pervasively stalked, depowered, but power is not your  
blood.

Understanding, power.

That's the way it is.

From the story of Bush wanting only private medicine to all,

ancient barbarism seeks more and fights to create a whore.

This. World.

Of taker stalkers, barbarians, people of governments and power,  
and

one that takes that through cannibalism and kills them all.
