Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racism

Second world rich countries. Hungary reached the official top position with salaries in the \$200 range compared to \$30 in the contra US, the SU. Hungary stood as the port between the East and the West as it opened doors to East Germans to travel to the West and ignited a mass violation to the rule that East Germans were not allowed to travel to the West. Days later in Berlin, millions stood and brought down the wall as a flaw took out the big power. A single flaw where thousands, tens of

Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racist

thousand,
hundreds of
thousands
suddenly
were able to
flee East
Germany
and through
Hungary
where East
Germans
were
allowed to
travel they
crossed up
to Austria
and
then to
Germany. It
was all
about
timing that
caused the
fall of the
East block
in Europe.

What has happened in East
Germany since? This is a
man's world.
30 percent of women
moved to West Germany
and most men ended
up living where they did in
their home towns...

Everything is about timing, and Bush knows
that.

When Hungary opened borders for East Germans and broke
an old
agreement
that blocked East Germans access to the West, East Germany
didn't
stand

Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racist

as Bush that such acts are considered an act of war from Hungary's side against East Germany. Young people acted in days and finished the job.

East Germany would have banned exit completely to East Germans. The idea of East and West was completely flawed now. That was the idea of hard-line systems to keep the system without flaws, and flaws were not allowed and a passport system was in place, and in larger places like in Russia maintained even between cities.

typo: Soviet Union, not Russia.

Bush doesn't like change. He has that face. Changes give rise to flaws. Bush many times reminded the world during the Iraq war that the United States will not change and he is head.

Flaws. Flaws are what schools teach us against. Our flaws are filled in. I have a Summa Cum Laude.

Part 2:

It is that way, that in parts of the world where people are tall, culture develops for tallness. Serbia has the world's tallest people, and basketball is part of their culture as among black people in the United States. Characteristics of the body shape culture.

Neanderthals, our brother species who separated from homo sapiens 700 thousand years ago had large muscular body characteristics and they worshipped facing animals in a hand to hand wrestle. They died out around some 28 thousand years ago. They had very similar back and neck injuries found among cowboys and bullfighters in the USA today.

Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racist

Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racism

It is that way, that in parts of the world where people are short, culture develops for shortness, but more interestingly one sees extremes as the art of fat fighting among Sumo wrestlers. Fat people are not found to be wrestlers or fighters in general, but Japanese culture introduced Judo and Sumo where overweight people learn to utilize their excess weight as a form of martial arts.

One of my questions in this book is to try and predict how body characteristics can change in the next one million years, and arriving to a special 6 meter tall women who is a professional swimmer, and of course wins all swimming championships.

.
