Yes, basically mafia and

Re: It is all about slavery. Virtual slavery. Orwell's book was about slavery. Dictatorships are slavery. Republicans are a racist

One of course spends a lot of time with a Summa Cum Laude simply being horrified of how cold some can be under prescribed law and order that they received from some mind control department and engage in stalking terrorism. How humans can throw all things away for one belief, in his case for fascism, and executing all jews, primarily one who reminds him of a hacker who he complained once about, a dangerous disgrumbled employee who left the office and broke in to the computer network of the company. When he approached me he had that hacker in his eyes, and persisted I am evil, and described me in all regards as that person he hates and sees in all his enemies. I have a Summa Cum Laude in computer science.

End of Part 2

Part 3:

Things add up. Things add up he keeps repeating, and he adds:
and time is running out. Hackers must be terminated.

Since when computer programmers are saught by the Gestapo, identified as a Jew in a Nazi Germany time. All this of course takes place in a virtual world, a computer reality where enemies fall in such categories, but neverless, the Gestapo is the same Gestapo, the words are the same words found in World War II times,

and
the vicious attacks are with murderous expressions toward
termination.
But here in the holodeck, one could see people as agent bots,
who seek one another's termination. In my world, he is a
stalker
online, one who needs termination not in the holodeck, but in
real life and sent to jail for stalking and terroristic madness
where he follows all activities of a person he cannot stand
and
runs years of hate crimes and attacks. He is the controller so
he
takes everything, comes to me with my name in his email
and
shows all aspects in terms of fear, and fear one really sees in
such
criminal psychopathic murderer.

All sorts of things come to mind, I remember Lennon who
spoke against
big governments, a man who reminded many of Jesus, he
sang of
love, and was an icon of the hippie era that commemorated
peace
and love around the world. He was a humanitarian and an
icon reminding
of similar wishes by others in history like Gandhi who stood
against
great powers that are more racist than original, in fact these
great
powers are pro-replacement of all general aspects, how can I
say, replacement by aspects of a regime that see no interest
in
taking part of humanity but to live the old regime from a
regime
blue book that after studying one finds it is full of criminal
stalking
aspects and grotesk dictatorial sides no different than in the
times
of the Nixon era, yes, in these regimes time stopped
somewhere
in the mid 20th century perhaps. A no interest in
humanitarian
aspects,
say in my Summa Cum Laude but by all means be some
other servant
of real dictatorships where people are prosecuted for skin and
for
daring to oppose the dominant leaders, in his case Google

that he
identifies with in pervasive criminal manipulation of
humanitarian
assets,
including humanity itself that is sought to be dictatorialized
with
cameras. A camera world built upon humanity and with that
world
come darkness of a power beneath, a religion of a reborn
Hitler and
his neo and most importantly, his original players who act as
repressors and protect such a world through it's image of big
brother.

Correction: ...though it's image of big brother and people of fear,
people
of tremendous arrogance and stalking disorders.

(now) End of Part 2.

Correction: added sentence: Crime seeks many, and as that together
they seek a love in the formation of a murderous empire, and the
aristal
of a curtain of repression and all aspects a deteriorated with
greatest
threats, through a behavior of sour-faced all can see blackmail of
facts.
Terrorism is born in a natural landscape of a blackmail world that
only
knows violence and stalking for gain, all things discriminalized and
that
is what sets leaders in this place, not actual representatives of
people.
This aspect was familiar in times of Kings where conspiracies defined
all inner circles of power. Yes, this place lacks Democracy. This
place
is conquered, and as conquerers they stand with pride.

Reviewing Part 1 and Part 2:
