can sue as John Lennon  
as phone companies lease  
out phone lines to the  
government and  
the government does  
whatever it wants with those  
tens of thousands  
of phone lines used for  
listening in. Automated big  
brother is Orwell  
and such things give an  
unprecedented status to  
Bush. The notion  
justice for all is violated for  
a Nixon era unchanged  
madness of power  
in power for power, KKK.

In days of slavery the situation was the  
same. Radical extremist power  
over-ruled human rights and kept human  
rights under political curtains  
and discriminating repression under Brain  
Washington.

Brain Washington is very representative. A  
cult is one that seeks to  
replace general solutions with it's own. Bush  
believes ONLY in private  
healthcare for all and aims to replace all  
general healthcare.  
Scientology  
aims to replace all medical care with it's  
solution as well, and as  
all  
cults that replace general things, they have  
tendencies to take over  
the  
World. Bush carries all those tendencies, a  
man whose brain is washed,  
he is a cult, a classic cult.

The Christian churches in the USA aim to take 10 percent of  
people's  
income and keep close tight doors to members as a financial

result  
and strongly keep count of all members. In Europe churches  
are open  
to anyone, doors open all day and built by the people for the  
people  
and  
ask no tight membership money.

Scientology completely closes doors and takes all money of  
it's  
members.  
Members who call themselves insiders as they are bound to  
an inside  
way of life and those not scientologists are called outsiders  
work 7  
days  
a week, 16 hours a day and receive 20 dollars a month for  
minor needs.  
They aim to solve all medical care and run a government of  
their own,  
even prisons in deserts to their members with reported  
torturing,  
holding  
those who misbehaved in prisons under a cult and replace all  
normal  
living with their own prescribed solutions undertaking lives  
and  
cultures  
and society and of course aiming to take over the world and  
live off  
luring the rich people. Scientology specializes on rich people  
as a  
cult.

Germany banned Scientology as Scientology takes advantage  
of the  
vulnerable and robs their life in totalitarian forms of slavery  
and  
misery  
and abuse.

Republicans replace basic life with a cult in all regards,

cult forms, while politics is not supposed to mix with religion. A lie, corruption and supremacy is a result, tied with classic racism.

80–90 percent of Arabs think negatively of Americans as a result of the Iraq war. Racist negligence and corruption compromises safety with racism. Radical extremism as in the mid–East Crisis is the perfect place for Republican Americans, but Democrats in the USA too compromise safety with racism in politics and not seeing, not hearing and implying religious rule of law on others in empire Brain Washington compromises of fascism and corruption. Long detached from human rights and civilization, international diplomacies and carrying slogans, though once in a while seeing reality, but playing with free energy, not bringing any solutions there, and playing with free energy in Democratic politics while there is a war out there, politicians sitting with ideas as that and ignoring the world and politics while Bush is running a pet project of racism, intolerance, racist tarnishing and crimes against humanity. As with Hitler, not just the Democratic opposition of any kind, but not even his second officers dared to disagree with him.

Fascists aim to replace all things with their own policies, as that all other parties are repressed, be it Pinochet, Hitler, Ceausescu, fascists aim to have a full solution and replace all things with their solutions and the society breaks into a leadership rule. Barbarism under totalitarianism and full replacement policies, the cult mind of fascists live off of others being in the system of corruption and intolerance, a heightened supremacy under dominant politics, and really all hardcore (formerly known as hard–line) is fascist unilateral who compromises safety with racist power. Barbarism

lives in North Korea, USA, mass brainwash feeds power under radical extreme tarnish tavarish PPPC/CCCP formulation of power. A racist regime power does not take criticism, follows people with a Gestapo, and trusts no one. It relies on the Feurer and all things live in conspiracy and rule of law, and as that acts powerfully, engaged, and compromises through racist threats and not through international diplomacy and human rights. It creates mandates rather than lets life be as Beatles sang, then it portrays itself supreme and most powerful and worships that military power and lives the life of a regime and not life of culture and country. A political mindset of power, detached from regular politics, it's party leaders vote 100 percent for war and corruption continues on grounds of us and them barbarism where there can be no compromises, not even safety with racism but a one unilateral mind of war and fascism, the cult of Washington superpower that as under Nixon, relies on it's military and supermacy through a dictatorial status of murder power radical extremism, iron curtain, or a sour curtain but a curtain of radical supremacy while the leader makes genocidal threats of terrorism to Iran that he is willing to use the nuclear bomb on Iran if he has to, wiping out millions of civilians in crimes against humanity once again.

Not only Google watches you, big brother watches you.

The USA is solved, and human rights will not allow this dog control scientology of racism on grounds of human rights.
