Terrorism has no rules. Reprisal for terrorism abides by terrorism's rules. Japan's undeclared attack upon a legitimate military target was reprised with Hiroshima (payback) and Nagasaki (interest on the debt). Islam's undeclared "stateless" attack upon the World Trade Center killing 2800 international civilians will eventually be met with "stateless" reprisal vaporizing Mecca and Medina – and more. Both Russia and China have serious issue with Islam's perverse enfatuation with murder and destruction, and share a common goal with the US – reprisal and cauterization.

Sand niggers and dune coons gave it their best cheap shot. Their Allah is going to enjoy a nuclear hemorrhoidectomy. (Especially Wahhabi) Arabia thinks it has nothing to lose this life vs. the next. It will be massively proven to be wrong. Bush the Lesser has deficit dumped nearly a \$trillion into that sandy shithole. It is futile against the mob. The debt must be repaid – massive taxation or massive inflation. The only other alternative is massive war and the spoils of war in compensation.

Uncle Al says, "Let the Marines do their job without interference. Come back in a month to lasting peace and start pumping oil at the true amortized wellhead cost of \$1/bbl."
