The American Board for Certification of Teacher Excellence is proud to inform you of a great opportunity for you and your colleagues. We are in our final stages of developing a Chemistry and Physics Certification for America's prospective teachers. The American Board has been working diligently to develop standards-based exams and is now in the process of recruiting participants to sample test the questions. Not only can you put your subject area knowledge to the test, but we will pay you for it!

Currently, we are seeking individuals who are highly qualified in the Chemistry and Physics fields. The following describes those who are eligible and compensation plans of each subject. To register for this opportunity, please visit <http://abcte.org/fieldtest>. Both tests are presently being administered and will end July 1st. Testing centers fill up quickly, so register today and reserve your spot today!

## Chemistry

Participants will be awarded a \$75 stipend for taking the chemistry sample exam. As an incentive, those who score within the top 25th percentile will receive an additional \$50, resulting in a total of \$125.

Those eligible must meet at least one of the following:

- Experience teaching chemistry as a teacher or professor
- Have an undergraduate or graduate degree in chemistry
- Have experience working in research labs or pharmaceutical companies
- Completed at least FIVE college chemistry courses
- Currently enrolled medical students

## Physics

Participants will be awarded a \$100 stipend for taking the physics sample exam. As an incentive, those who score within the top 25th percentile will receive an additional \$50, resulting in a total of \$150.

## Nationwide Chemistry and Physics Sample Test

Those eligible must meet at least one of the following:

- An undergraduate or graduate degree in physics
- Experience teaching physics as a teacher or professor
- Completed at least FIVE college physics courses
- Industry related experience (engineers, physicists, scientific programmers, etc)

All tests are administered at Pearson VUE testing centers, located in most metropolitan areas. The tests consist of approximately 126 to 160 computer-based multiple-choice questions and generally take two hours to complete. Testing is entirely confidential and results are used only for statistical purposes. Our goal is to obtain data on each individual question.

If this opportunity sounds interesting you may register at <http://abcte.org/fieldtest>, or if you would like to learn more about our organization or certification exams please visit us at <http://abcte.org>.

Thank you for your time. If you have any questions please contact me at 202-263-8339 or email me at [cjones@xxxxxxxxxx](mailto:cjones@xxxxxxxxxx) I apologize if you receive this email twice and thank you for those of you who have all ready registered.

Sincerely,

Chad Jones

.
