Cognitive studies are EVIL, they're the work of the devil, made to collect your souls and to turn you into brainless slaves of hell.

If you like to study cognition, you will lose your soul to be damned for eternal torment in hell. Demons and devils will feast on your soul for all eternity.

So stop supporting this ultimate evil now to save your soul.

Or the holy inquisition will come for you and burn your flesh to save your soul, because the devil must not collect more souls or nobody can prevent Armageddon.

Cognitive studies are evil, thinking about them is BLASPHEMY , only heretics and witches like cognition. And heretics and witches shall BURN !

cognitive studies = SATAN STUDIES !!!
