This is a book chapter in:

Neurocomputing: foundations of research

Pages: 115 – 122

Year of Publication: 1988

Search for it in Barnes and Noble – they have used copies available

I wonder perhaps if someone could direct me to where I could download
(purchase) a copy of this paper:

O. G. Selfridge. Pandemonium: A paradigm for learning. In *The
Mechanisation of Thought Processes*. H.M.S.O., London, 1959.

I have searched in vain, only finding dozens of other papers which cite
it.

Much appreciation...
