You are wrong, more proof you have been MISINFORMED and have let your negative thinking beat you:

<http://www.copperhead.cc/speed.html>

The upload speed test was done using FTP of a 2,000KB file to a web server. Tests were run for 5 consecutive days and the results here are the averages of those tests. The system used for testing is on the 990 frequency transponder using an RWIN setting of 474280.

I have personally used DirecWay – it is faster than dial up on uploading – I get about 50K on direcway, about the same on my verizon wireless cell phone with data – on dial up I get about 4K – ten times slower – quit being silly – you make yourself sound like a fool. Do you have sprint or verizon wireless signal where you live? You are a negative thinker, you have beat yourself before you even begin.

Part of

50K sure beats 4k – why are you an idiot?

Quit being silly. You don't need a water heater to RUN your computer.

Its not all about INCOME, that you believe this lie shows how much more of a FOOL you are.

Is your card insured if your bitch wife or shopping machine daughter sneaks it out and spends la vida loca? They can't do that on a secured credit card. Sometimes you have to protect daughter and wifey from themselves and thier weak emotions.

- >> *Some of them got a job delivering pizza,*

You are WRONG, several of them liked that job, it was FUN. They were HAPPIER than when they worked at IBM under all those RULES – INCOME is NOT the only thing life is about – HAPPINESS should be – you serve the dollar though, you are a slave to the dollar, you will never be happy, you need help. I feel sorry for you.

No thanks, I already did my slavery under the dollar, I am happier now poor.

<http://slashdot.org/articles/04/07/25/2022203.shtml?tid=126> Africa is coming for you too, let pedro pick the crops, let africa write the programs, lets me and you go watch free movies and play free games at the library or go to the Free Hubble program they have at the museum – play is FUN.

Plus, I'm over 50 –

MONEY MONEY MONEY, green IOU's – you are sick – do you understand this – there is MORE to life than MONEY. I live better than you on 1/100th the INCOME, next decade if the american economy goes bust and your pension fund is wiped out and they say SORRY, you will be one of those idiots that jump off the bridge because his whole mental process is about MONEY, not happiness, I hope your children didn't get infected by your evil bullshit thinking – or they are going off the bridge too.

I've always avoided management, for instance, as I

Tasers and other non lethal weapons are just as good to subdue a criminal or corrupt politician as a gun, why not give peace and non lethality a chance? I lost a nephew when he was 13 because him and a friend were playing with a gun, a taser wouldn't have killed him :(

Hmmm, I use Xnews to read sci-econ – written by one guy with delphi and it was FREE to me. www.sourceforge.net shows there are MANY TEAMS not needing uni education or INCOME to get things done.

Windows 2000 was a

Development history at sourceforge showing you know your stuff, being able to ace tests that idiots from UNI don't know the first answer too.

There were people at IBM in the token ring group who had masters and PHd's – but they weren't making any more progress in the area – the guys over in ethernet was making the company money.

Get a cellphone, I can access the internet anywhere I am – don't even have to go to my computer now. Oh that's rock Rockefeller and Vanderbilt, even with all your billions you don't have a cell phone do you? BWAHAHAHAH!

I'm going to do

Where do you go Mr 1890's Vanderbuilt BILLIONAIRE to get INFO I can get with 10 dollars and a cellphone with a built in wireless net connection or PDA or laptop with wireless PCMCIA card? BWAHAHAH! YOU LOSE!

I don't, I want Pedro or a robot to do it – I am lazy too, you are the one saying LETS SAVE THE JOBS FOR AMERICANS – you contradict yourself and make yourself look dumb. I want the africans writing the programs I need if they can do it cheaper, as long as I can get the BENEFITS, I want pedro picking the crops as long as I get the benefits, I want Bill Gates making BILLIONS as long as I get the benefits, I want walmart killing mom and pop as long as it increases my benefits and doesn't cause children to DIE.

I want to do

- > *computer work, get money that way, pay it for the damn sweet potato at*
- > *the grocery, and eat it at home, later.*

You cant get money in computer work anymore, but that does NOT MEAN your BENEFITS reduce, just because towel head and africa boy are writing the programs now, DOES NOT mean you do not BENEFIT from thier labor, just because pedro picks the crops instead of you does not mean YOU DONT BENEFIT from his labor, you want the BENEFITS but dont understand what BRINGS BETTER BENEFITS – it is not staying rich like rockefeller – it is letting cheaper sources of labor and progress come in and make things better for us ALL!

I don't want to be spending

- > *my time with plows and fertilizer and etc... If I did, I'd probably*
- > *turn Amish...*

BWAHAHA! Even they are starting to use gas powered washing machines I hear, the BENEFIT from gasoline even though they no longer do the manual labor to produce the benefit. You dont have to be the CODER to benefit from the work of FREE linux programmers. Why is your head fucked up in that regard?

- > *You tend to have no income, which leads to getting thrown out of your*

I left my 1100 a month apartment in RTP, NC when I left IBM, I have a paid for 1974 singlewide trailer that I pay about 40 a year in taxes on, keeps the rain off my back just as good – is smaller so cheaper to heat and cool.

tends to make you hungry a lot from

- > *inability to buy food,*

I used to buy 50 dollars for 1 lobster dinner, my cholesterol was over 300, now I pay 2 dollars for a pound of sweet potatoes at the market or walmart – eat for 3 days, and my cholesterol is almost 200 and I feel BETTER too, more money is not the happiness you pretend it is, I feel sorry for your children you taught that evil lie too, pathetic.

gets you to a place where you don't have health

- > *insurance so you die from an infection you had to wait too long to get*

The 50 dollars and lobsters were killing me, the 2 dollars and sweet potatoes are saving my life – you LOSE.

etc. etc. I really, really hate

- > *unemployment – actually hate the lack of income, but practically its*
- > *the same thing.*

Lack of income is not LIFE, is not HEALTH, is NOT HAPPINESS< that you have been sold this LIE is very sad to me, God said you can't serve 2 masters, you serve MONEY obviously, I feel for you when that fat pension dries up because of insolvency, It will be like Rockefeller having billions took out of his bank account but given a cellphone and cholesterol lowering medicine, his life will BE BETTER, but his slavery to the dollar will cause him to committ suicide – PATHETIC. Well nature has a way of getting rid of fools. Bye Bye Fool, you won't be missed.

I don't like watching free movies unless they're in a free  
> *theater with free popcorn and free coke.*

Rockefeller just WISHES with all his billions in 1890 he could go to the 1 dollar theater I go to with FULL COLOR and SURROUND SOUND and get a 2 dollar coke – he was lucky to go to a black and white film with NO sound and get infected water with bacteria – he had billions, I got 5 bucks, you are a fucking idiot.

Well Rockefeller, you got billions back in 1960, but with all your BILLIONS, you cant use my cellphone, see my surround sound color movie – I have 5000 choices a year on DVD – how many you got with your billions?
