One thing is irresponsible credit. In particular, credit cards. The cards are being promoted to many who wind up being unable to make the monthly payments and must declare bankruptcy. Many are at a young, gullible age. I was in my bank one day (WellsFargo), it is near a large univ. campus...and they had a desk set-up in the lobby offering free tshirts and pushing credit cards on the young kids. I spoke to the manager and she got nasty with me about it.
