..  
..

These obscene retirement level for such as prison guards, half tax free at that, are bankrupting california citys and the state...  
some of these packages are worth over 7 million dollars depending on how long the snivel servants spouse lives.

Disability and pension fraud in Calif civil service and the CHP detailed.

last part of the article mentions pensions in the 100,000 to 200,000 dollar year range.

documenting links included.  
[http://www.cfac.org/Attachments/disabilities\\_pensions.htm](http://www.cfac.org/Attachments/disabilities_pensions.htm)

[http://www.caltax.org/Fraud9-10-04.htm#\\_Toc82577075](http://www.caltax.org/Fraud9-10-04.htm#_Toc82577075)

read all of the retirement related articles and the links..  
some regular, high school graduate level fire fighters in San Diego calif are earning over 170k a year.. state law requires that these be retired at 90% of last years income.. that will be 153k or so.

Same with police. CHP and many court employees.

In NYC its 100% of last years pay for retirement after 30 years service (at age 51)

Thats true for fire, police, sherifs, CHP and others no doubt.  
For others, the majority of civil servants its 60% of last years pay... with many of these long on record for taking workmans comp time off, so the last year people make much more

Snivel servant pensions and fraud are bankrupting Calif Cities and the state money and still retire at over 100K.

The governor of calif has put that on a voters referendum for this fall. Its been in the news, one hospital guard 'earned' 158k in SF last year, he will retire if this was his last year at 135k or so.
