"But you are free to repeat your libels of eminent economists ad infinitum, and it is never incumbent on you to provide any evidence?"

-----  
-----

I am looking right now for evidence that the petition was in existence in 1990, what the text was in 1990, and who supposedly signed it in 1990. The burden is on you Georgists to provide it. The best way to do that is a photocopy of the original publication from 1990. You haven't been able to provide it so far.
