Build a robot that cooks hamburgers. Lots of sensor work (shades of burger done-ness), mechanisms and feedback for the motors, and power control. Also, you'll be able to use it to your advantage if you flunk out of school...

Regards,
Bob Monsen

The chief aim of all investigations of the external world should be to discover the rational order and harmony which has been imposed on it by God and which He revealed to us in the language of mathematics.
– Johannes Kepler
