On Saturday 02 October 2004 10:21 pm, Lewin A.R.W. Edwards did deign to grace us with the following:

> *Hi Dave,*
>
>> *We seem to fly in similar circles :)*
>
> *Hmm. Coincidences:*
>
> *My wife (not an electronics person) rolls her eyes when she sees the*
> *stacks of equipment I need. She said "Don't most people have just one*
> *oscilloscope?" (See part of my "electronics workspace" at home*
> *<<http://www.larwe.com/workspace.jpg>>). The problem is, I actually need*
> *at least one more scope – I'd like a HP 54645D like I use at work –*
> *because I need something with deep memory. The 16-channel*
> *mini-logic-analyzer is very useful too.*

Where would you put it? For that matter, where do you put the DUT?

;–)
