Let me know when you've got this so I can delete it. I'm at my storage limit.

Also, do you need the HP-IB codes at this time?

Wes

done, thanks, delete at will. and yes please wrt hp-ib codes, although now I have to save up and buy a usb-hpib adapter. I did some web browsing, and it looks like it will cost me US\$400-\$500, the latter price being the agilent box of tricks (which I will probably get). Looks like I'd better do some more work (in my now much-better-equipped lab) to earn

Re: S-parameter test sets

enough to pay for it and the s-parameter test set.

Many thanks once again,

Regards
Terry Given
