

Spam from National Semiconductor

Source: <http://sci.tech-archive.net/Archive/sci.electronics.design/2005-12/msg00911.html>

-

I signed up to watch the Bob Pease show, only to find my ancient PC isn't beefy enough to play the video! Now, I can't seem to unsubscribe from the e-mail newsletter. The "change your e-mail notifications" page doesn't load properly on IE, and they seem to just ignore my e-mails. Does anyone else have this problem, or know how to unsubscribe from this spam?

TIA
Andrew.
