What astonishes me is that ppl would
actually view porn in public view.

These are not your ordinary "people" and nothing astonishes
anybody over
here. There was a recent incident locally where an individual
was caught
performing a self-sexual act at the library computer. They do
make
arrests in that case- not considered an inherent
Constitutional right
just yet.

Talk about repressing his "self-expression"!

It was a dumb 19yo male- his name, address, and picture was plastered
all over the newspaper. Maybe he was emulating Peanuts or Peabrain or
whomever...

Peabrain lost his career. If this d*rk had an agent or high-profile lawyer and was reasonably presentable & entertaining he could probably *create* a show-biz career from this arrest.

Here's Aussie self-expression being threatened:
