Here are another few EE books I found near the top of another pile prices are delivered to you by Media Mail in the US, shipping will be higher for overseas.

Cuthbert, Thomas, *_Circuit Design Using Personal Computers_*, Wiley (1983), hardcover, dust jacket shows slight wear, otherwise like new, \$25

Kuo, Benjamin, *_Digital Control Systems_*, Holt, Reinhard, Winston (1980), hardbound, like new, \$18

Chua, Leon O. and Lin, Pen-Min, *_Computer-Aided Analysis of Electronic Circuits: Algorithms and Computational Techniques_*, Prentice-Hall (1975), hardbound, spine creased, some notes written in pen in the inside rear cover, a few marks along the outside edges of some pages, otherwise very very good., \$15

You can reach me by email at sgold@alum.mit.edu, but you'll need to insert the appropriate punctuation. Hint – there are three parts after the "at" sign, so you'll need two dots.

Is there a sleeve in the back of the book with the original sliderule still in it?
