When we had those "gray-outs" there were people who found themselves unable to open their garage doors. They just didn't know how.

The mind boggles !

Others could not use their phones because they had managed to eradicate the last old non-cordless set.

And the instructions warn you about that too ! RTFM

We just fired up the old Weber, hung some beer in the pool to keep it cold and had a jolly good time.

Best answer.

Graham
