IMHO the USA could benefit from the same.

Or we could just nuke all of Europe, instead. Then there would be no more Euroweenies, and anti-American whining from the likes of you. IOW, a few dozen multi nuclear warhead missiles, and no more problems.

You'd get nuked back of course. A compelling reason for the UK to keep its independent deterrent.

So, its ok for some asshole in Europe to call for the death of everyone in the US, but not the opposite?

Boy, you really don't grasp the concept of "free speech", do you? Yes,

Re: what the hell is ROHS

it's OK for some asshole in Europe to CFTDOEITU, just as it's OK for you to call them an asshole, and it's OK to announce to the world what an incredible asshole's asshole you are by calling for the mass destruction of that person plus millions that you've never even heard of.

I may not agree with what you say, but I will defend to the death your right to be an abysmally stupid, murderous, evil, vicious dupe of the neocon regime.

But remember, I reserve the right to defend my Life, Liberty, and Property from the machinations of the likes of you and your ilk.

Cheers!
