Hi guys,

Is it just me, or do I see a lot of posts here
kind of like

"I'm designing an ultra sophisticated
trans-dimensional 693-bit,
12.336925 gigahertz orthogonal dynamic
phase shifting spread-spectrum
controller to get better performance out of
my 8-speed food blender
...."

Luhan

That's **exactly** what I'm looking for ;-)

Funny, that's **exactly** what I'm working on, right now. Want a
Schematic?

This is getting stranger than I imagined....

.... do not attempt to adjust your set.

We control the vertical.

We control the horizontal...
