That was rubbish when it was broadcast 20 months ago, and it still is.
9/11 and 7/7 weren't figments of our imagination, you know!

The loony left, at least in the US, is starting to say they were. One theory is that the passengers on Flight 93 are being hidden away somewhere and the crash was faked... the Twin Towers were brought down by explosives planted by Bush... and so on.

And the earth is flat, and the moon is made of green cheese, and pigs have wings...
