Life? Internet is life? What a loser. Maybe internet is life to you.
The only power you have is the power to jerk yourself off. No ISP is
going to listen to you nor do they care. I am here to stay. So watch
and see.

OK, let's say that you can say what want to because your ISP won't
cut you off. That doesn't mean that you're not terminally stupid,
all it means is that you have a channel through which you can post
your ignorant crap.

Unfortunately, for you, that stupidity keeps you from seeing what an
idiot you really are.

Spell? Come on now, you have spell check on and you cannot even get it
right.

I usually send my posts out raw, since I know how to spell, but the
thing that's challenging about dealing with your ilk is trying to
show you how abysmally ignorant you really are.

A lost cause, perhaps, because you're not smart enough to understand
how stupid you are, so the only way to get through to you is with
the literary equivalent of a 2X4 right between your eyes.

Sigh... So many idiots, so little time...
