While searching for IC's I came across this:

<http://www.wikipatents.com/>

Looks like a site for the public to comment on patents.

Maybe...

Comments like "You bastard..you stole my idea!" :)

Or....

You can ridicule patent 5443036: Using a laser pointer to exercise your cat.

Geeeezz....

One of the lamest patents I know of.

Why would somebody patent that?
